Indonesia, ID | P: +62 895 1885 3275 | rifqyfauzann1@gmail.com | linkedin.com/in/rifqy-fauzan-6264b6291

Flutter Developer with 6 months of freelance experience in developing mobile applications with clean architecture and intuitive UI/UX. Proficient in using Provider for state management and integrating Firebase services. Strong communication skills, fast learner, and able to work both independently and collaboratively. Eager to grow and contribute in dynamic development environments.

EXPERIENCE

PT. Kamil Tekno Globalindo

Fullstack Mobile Developer   *Feb 2025 - Present*

Responsible for developing a mobile application designed to help travel agents create and manage invoices efficiently. The app includes features such as PDF invoice generation and export to Excel, enabling users to track and report purchases made by their clients with ease.

PT. BPRS Mitra Amal Mulia

Front-End Website Developer   *Nov 2024 - Nov 2024*

Worked on building a modern, responsive company profile website to strengthen the company's online presence. Focused on delivering a clean user interface and clear information structure to effectively showcase the company's identity and services.

Sekolah Indonesia Kota Kinabalu, Malaysia

IT Trainer   *Oct 2024 - Oct 2024*

Delivered an educational presentation introducing the world of IT to students, covering basic coding, basic design, and IT career paths such as Mobile Developer, Web Developer, and UI/UX Designer. Also presented an overview of IDN Boarding School's educational system. This experience enhanced my public speaking skills, ability to explain technical concepts clearly, and confidence in engaging with diverse student audiences.

EDUCATION

IDN Boarding School

Mobile Developer   *July 2023 - July 2026*

A tech-focused vocational high school where I majored in Software Engineering, gaining hands-on experience and industry-oriented IT skills.
